ANS Solutions Medical Cost Containment

Have you ever wondered whether other so-called medical cost containment programs actually deliver a maximum lifetime savings result?

ANS Medical Cost Containment Programs are the only true face to face, and end to end pharmaceutical cost containment programs that put the patient first and minimizes the cost of settlement in large loss workers comp claims.

ANS Services

- Medical Cost Projection Services
- Pharmaceutical Cost Containment
- Legal Nurse Consulting Services

Medical Cost Projection Services

ANS Solutions Medical Cost Projection Program provides an individually customized and accurate analysis of the medical needs of the injured worker over their anticipated life expectancy.

ANS SOLUTIONS

Pharmaceutical Cost Containment

ANS is uniquely capable of both producing and enforcing the care recommendations developed by a team of Nurse Experts, Claims Professionals, and Doctors of Pharmacy.

Our cost containment strategies generate proven results through:

- Evidence based reviews of medical necessity for prescription drugs
- Consolidation and coordination of drug therapies between multiple prescribers
- Consideration of alternate medication regimes
- Specification of weaning programs for overprescribed narcotics

Legal Nurse Consultants

Unique to ANS' cost containment process is our national presence of highly credentialed & experienced legal nurse consultants. Our team harnesses a powerful hybrid skillset of medical expertise and jurisdictional knowledge that can help settle claims with optimal results.

\$1 Million Performance Guaranty Pilot Program

Only ANS Solutions offers a Guaranty of \$1 Million in Life Expectancy Savings for its customers. This program assures your organization that you will achieve a Minimum 20 to 1 Return on your Investment and that your Pilot Program with ANS Solutions will be completely Risk Free!
